

Snow Procedures

In the event of snow, Wakefield Methodist School will try to operate as normal, however, if there are insufficient staff who have been able to reach school, the school will be closed for the day.

In the event of a snow closure, the school will send a text message to inform parents/carers. It is important that you provide us with the correct mobile number so that we are able to keep you informed. We will also display this on our school website, in addition the Headteacher will notify Ridings FM, which is on 106.8FM and Wakefield Council will display the information on their website.

Please bear in mind that if you try ringing the school and there is no reply, it is worth visiting both these websites as well as listening on to 106.8 FM to see whether our school is on the closure list.

Please note that we always do our best to grit the main pathways on the site but do have to prioritise certain areas. Please take particular care if you are walking or driving in the area.
